

Synel Installs Solutions for Schools

Access2School

Synel offers a complete solution that electronically records students' attendance, resource usage and controls entrances to classrooms and buildings.

The system records individual students, staff and visitors in real time and eradicates all handwritten registration.

ID cards

Our ID badge system can provide valuable information as to the identity of the holder, i.e. photograph, name, title, card number and school logo, to give a sense of belonging

Readers

We have a variety of reading technologies from Magnetic, Barcode, or Proximity to Fingerprint

Attendance monitoring

Students register their attendance saving valuable teaching time

Security access control

Protect assets and students with our access control solutions. Our software can control access to defined zones in pre-defined times. For enhanced security you can use biometric readers and digital CCTV

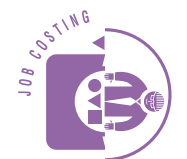

Integration with school's main software

Ability to adjust to various forms of school's existing software

Fire report

Can be fully automated

Card production

Print your own cards

Export / Import data

Link to school management software

Feedback to parents

Real time feedback by SMS to parents if their child failed to arrive at school
