Using HARMONY Demo server

7th lesson

Enter the HARMONY Client
use the user name and password provided by the tech team

SY-400 On-Line

The SY-400 is an online access controller that can support one or two doors and can communicate with HARMONY using any of the following communication lines:

- TCP/IP
- PoE
- Serial
- GPRS

The SY-400 can be connected to any of the following reader types:

- Fingerprint Reader
- Proximity
- Barcode
- Magnetic

In case of a power cut or network failure, the SY-400 can hold up to 20,000 transactions and will update the software once power / network is back

1.1. Available activities:

01. Add terminal type SY-400.
02. Modify Card type - badge reading format.

03. IP Address (if there is no TCP/IP, define the ID instead).
04. Fingerprint (optional).

1.1.1 Steps for Defining a Device:

05. Add reader Element.
06. Device Type.
07. Assign to a Door.
08. Reader Type.

09. Transaction Code
10. Relay Mode
11. Validation

See you in the next lesson..
