### Using HARMONY Demo server

#### 8th lesson

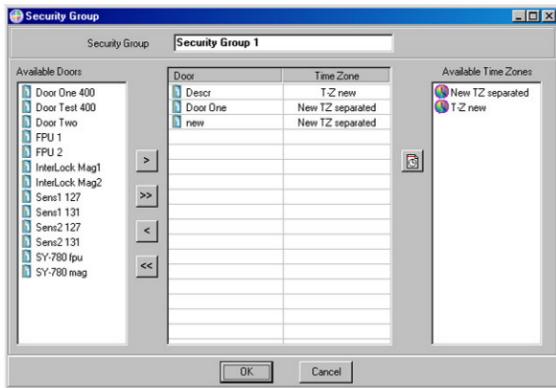

Enter the HARMONY Client  
use the user name and password provided by the tech team

### Security Groups

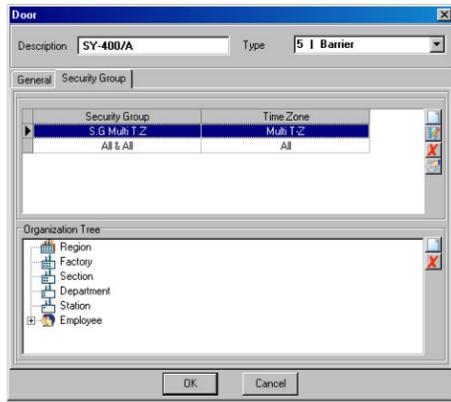

Defining a Security Group allows the group entry via a specified door at specified time zones. The Security Group is defined by doors its members can access and the Time Zone during they can access those doors.

#### HARMONY Access Control:

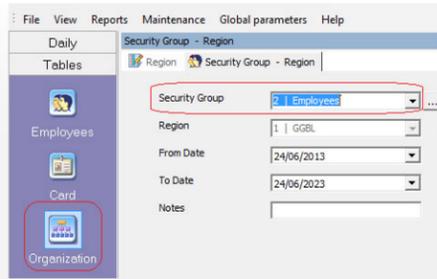

1. Add new Security group.
2. Use the arrows to add and remove doors.
- For each door, assign a Time Zone.

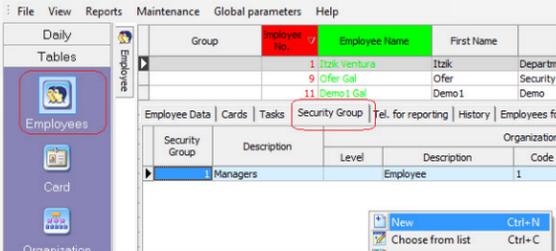

3. After Security Groups are defined, you can go back to the Door definition screen to drag and drop the relevant Security Group and its designated Time Zone. After clicking OK, the selected parameter will appear on the grid as well as on the Organization Tree (Error! Reference source not found.).

4. To add employees to your security group, double-click the button in the Organization Tree area, and fill in the relevant details in the screen.

5. Select individual employee security group, open Employee, and select the relevant security group.

#### Permitted per Security Group Report

This report lists all access permissions at each door for each employee. It is organized according to Security Group.

Synel LTD.		Date: 4/12/2009 12:52:12 P					
Permitted per Security Group Report							
Sort by: Employee		From date: 01/01/2008 To date: 31/12/2008
