Improve efficiency of your mobile workforce

## Efficient and Mobile

Synel Field service solution, SYQR, complements TimeLOGWeb Workforce Management suite. SYQR enables full mobile & flexible employees' attendance management.

- Monitor employees' location during working hours
- User Friendly
- Integrates all main WFM operations
- Paperless Expenses Reporting

### Simple and cost effective solution for remote attendance registration

- Create unique QR code per location and range of dates
- Download smartphone application from Google store or App store
- Scan QR by application to record IN or OUT
- Scan & upload work permits, site induction documentations
- View scans in website and reports
- Record breaks
- Compatible with TimeLOG Web solution

### Health & safety

SYQR offers enhanced health & safety benefits. SYQR enables the monitoring of lone workers and the recording of safety critical records

1. Track the geo-location of the lone employee's activities
2. Record complemented Health & Safety records and documents
3. Record the details of PPE and safety equipment used

'SYQR Mobile Workforce management is the perfect tool for monitoring and recording the activities and safety of your mobile workforce.'
